About the Organization

TCI Foundation is one of the premier non-government ISO 9001:2015 organizations in India. It is an autonomous organization having its presence across the nation. The Foundation works within the ambit of government rules and regulations, and in compliance with the laws of the land. TCI Foundation primarily provides supplementary support as a partner to governments in public health programmes and projects. It also acts as advocating agency in the enactment of public policies in the country.

TCI Foundation is an equal opportunity employer. Employment at TCI Foundation is based solely on individual's merit and qualifications directly related to professional competence. TCI Foundation does not discriminate against any employee or applicant because of race, caste, creed, colour, religion, gender, origin, disability, marital status, or any other basis protected by law.

Position Roles & Responsibilities

1. **Planning Coordination:** Coordinate with NCVBDC under direct supervision of National Technical Lead to plan, roll out and implement sub-national verification activity in the identified districts.
2. **Technical Arrangements:** Understand the functional and technical requirements from the departments (centre, regions and state and other involved stakeholders) for implementation of activity. Liaise with NCVBDC to finalize the list of experts/committee for sub-national verification to be appointed/constituted by NCVBDC.
3. **Implementation of Training:** Technically assist NCVBDC in the conduct of training of experts/committee appointed/constituted by NCVBDC. Coordinate with experts/committee to devise a check list for the activities to be conducted at the time of sub-national verification.
4. **Training Scheduling:** Coordinate with NCVBDC and experts/committee to devise the schedule of visits for sub-national verification in districts date wise and team wise.
5. **Training Facilitation:** Coordinate with regions and states to facilitate the visits of experts/committee for sub-national verification.
6. **Technical Support:** Assist experts/committee members to develop indicators/templates of reports/dash boards /scorecards as per requirement. Support the experts/committee in identifying gaps from analysed data and other standard sources.
7. **Quality Controlled Deliveries:** Implement quality assurance measures to ensure the accuracy, consistency, and reliability of verification results and reports.
8. **Potential Risks:** Identify potential risks and challenges in the verification process and develop mitigation strategies to minimize errors and discrepancies.
9. **Supervision:** Assist, manage and oversee all verification activities at the sub-national level.
10. **Reporting:** Technically support the experts/committee in preparing reports of sub-national verification.
11. **Visits:** Extensive periodic visits to regions, states, and districts to coordinate technically and administratively sub-national verification.
12. Assist the National Technical Lead in implementation of project activities within timeframe.
13. Undertake such other assignments given from time to time by the organization.
